Port of Olympia New Market Industrial Campus and Tumwater Town Center Real Estate Development Master Plan

Why is the Port of Olympia conducting a Real Estate Development Plan for Tumwater properties?

The Port owns over 500 acres of real estate in Tumwater (excluding the Olympia Regional Airport) that may be developed for commercial, industrial or other uses. A comprehensive plan is necessary to guide future growth within the New Market Industrial Campus and Tumwater Town Center districts (area on map in blue). A range of technical studies will collect and analyze data concerning the properties' marketability, environmental conditions, and infrastructure needs.

The Port is convening a series of public meetings to share information, gather ideas, and understand community member's interests.

You are invited to participate in the process and help shape the plan. Attend the first public meeting on Thursday, March 5.
