	Grant Services	

PURPOSE

Review and discuss the draft 2018 – 2021 Regional Transportation Improvement Program (RTIP), in preparation for adoption in October.

Summary:

- Thurston Regional Planning Council (TRPC) is responsible for developing an annual RTIP.
- The RTIP is a four-year programming document derived from local six-year Transportation Improvement Programs (TIP).
- The RTIP includes federally-funded, state-sponsored and regionally significant projects. It is prepared annually to provide a list of funding secured projects (Tables 3 & 4), identify other secured and proposed transportation projects for the same period (Appendix A), and demonstrate air quality conformity (Appendix D).
- Table 3, a summary table of the funding secured projects that must be programmed into the RTIP and State Transportation Improvement Program (STIP), is attached.
- Printed copies of the complete text will be available at TRPC's September meeting or may be picked up in advance of the meeting at the TRPC office. The complete text is also available online: www.trpc.org/306/Regional-Transportation-Improvement-Prog
- The draft RTIP will undergo public review. The Transportation Policy Board's (TPB) recommendation and comments, with any public comments received, will be included in the staff report for TRPC at the October meeting.

REQUESTED ACTION

Review and discuss the draft 2018-2021 RTIP. This item will be brought to TRPC for action in October.

MEMORANDUM
Page 2
March 31, 2017

BACKGROUND

What is an RTIP?

The Regional Transportation Improvement Program (RTIP) is prepared annually by TRPC, in cooperation with local jurisdictions and the Washington State Department of Transportation (WSDOT) to meet state and federal requirements. In turn, the RTIP is used by the state to prepare the State Transportation Improvement Program (STIP).

The RTIP is a four-year programming document derived from the comprehensive six-year Transportation Improvement Programs (TIPs) that each local agency develops and adopts annually. In these local TIPs, each agency establishes its own priorities, conducts its own public review, and adopts its own locally developed project list before submitting that six-year list to TRPC. The RTIP that TRPC prepares is only required to include projects from the first four years of those local TIPs.

The RTIP serves these main purposes:

- 1) It identifies a list of transportation projects that will be forwarded to the state for inclusion in the STIP. For federally funded projects, even if project funding has been awarded, it is not available to jurisdictions and agencies until the project is included in the STIP. To be included in the STIP, projects must be programmed for funding (funding-secured) in local Transportation Improvement Plans (TIPs) in the four-year period for both urban and rural areas and meet one or more of the following criteria:
 - a. Have federal funding
 - b. Be WSDOT projects
 - c. Be regionally significant, regardless of funding source
- 2) It demonstrates financial constraint for the projects referenced above.
- 3) It demonstrates consistency with RCW 36.70A, Section 70 of the Washington State Growth Management Act (GMA) requiring transportation planning to be coordinated and consistent with local comprehensive plans.
- 4) It demonstrates that regionally significant projects programmed for funding during the time period will not cause or contribute to any new violation of the federal air quality standards for particulate matter of 10 microns or less (PM_{10}), will not increase the frequency or severity of any existing violation of the standards, nor delay timely attainment of the standards.
- 5) It identifies other programmed and planned transportation projects adopted in local six-year TIPs.

Projects in the RTIP are presented in three phases, preliminary engineering and design (PE), right-of-way acquisition (RW), and construction (CN). Project phases included in each year's updated RTIP may vary as phases secure funding or are obligated.

Relating the RTIP to the Regional Transportation Plan

The RTIP is a short range implementation program of the priorities identified in the longer view of the 2040 Regional Transportation Plan (RTP), adopted by TRPC in July 2016. It consolidates the next four years of transportation projects into a form convenient to review for consistency with the region-wide goals, policies and priorities articulated in the RTP.

The RTIP projects were reviewed for consistency with the RTP. While all the RTIP projects were found consistent with the 2040 Regional Transportation Plan, those which are "regionally significant" are individually identified in the RTP. These are major projects that influence travel patterns and traffic flows over large areas.

MEMORANDUM
Page 3
March 31, 2017

Though dubbed “regionally significant,” these are only part of the important transportation investments made in the region, as the RTIP shows. Projects like pavement preservation, system safety, intersection efficiency, sidewalk infill, on-street bike lanes, and shoulder upgrades – all found listed individually in the RTIP – are essential to the safe and efficient functioning of the transportation system, and are consistent with the priorities expressed in the RTP. The complete list of projects provided in the RTIP, while consistent with the RTP, provides reviewers with a more specific picture than provided in the RTP, of the investments being made in the region’s transportation system.

Public Comment

While agencies held public hearings earlier this year on the Local TIPs, public review and comment on the draft RTIP is also encouraged. Notices regarding the draft RTIP’s availability for comment will be published in The Olympian and posted on the TRPC website.

The draft RTIP will be sent to Transportation Technical Advisory Committee (TAC) members for their review and to staff at the following agencies:

- | | |
|---|---|
| <ul style="list-style-type: none">• WSDOT• Federal Highways Administration• Federal Transit Administration• WA State Department of Ecology• US Environmental Protection Agency• Puget Sound Regional Council• Pierce County | <ul style="list-style-type: none">Mason County• Grays Harbor County• Lewis County• Olympic Region Clean Air Agency• Nisqually Tribe• Confederated Tribes of the Chehalis Reservation• Squaxin Tribe |
|---|---|

All comments received during the public comment period will be included in the staff report to TRPC for your consideration when taking action in October. In addition, any project specific comment will be forwarded to the respective agency.

The draft RTIP will also be reviewed by the State’s Air Quality Consultation Group, comprised of representatives from the Washington State Departments of Ecology and Transportation, the US Environmental Protection Agency, and the Federal Highways and Transit Administrations. They will review the proposed conformity status for the RTIP. You will be notified of any substantive changes to the conformity findings based on this review.

The Transportation Policy Board will review the draft RTIP at their September meeting. Their recommendation will also be provided in the staff report to TRPC for consideration when taking action in October.

Table 3 from the RTIP is a summary table of the funding secured projects and is enclosed with this staff report. The complete text is available online. Printed copies of the complete text will be available at TRPC’s September meeting or may be picked up in advance of the meeting at the TRPC office.

Table 3
Summary Table of RTIP Projects

Project Title & Description	Agency	Regionally Significant	RTP Project ID	Phase	Year	Fund Code	Federal	State/Local	Total
2018 Capital Preventive Maintenance Capital Preventative Maintenance for Intercity Transit for FY 2017 Direct Apportionment of \$5307 funding.	Intercity Transit	No	-	CN	2018	5307	\$3,197,829	\$799,457	\$3,997,286
Bus Stop Enhancements for Safety & Accessibility									
Improve an additional series (approximately 11) of existing bus stops within Intercity Transit's service district of Lacey, Olympia, Tumwater, and Thurston County. The purpose of this effort is to: a) increase pedestrian accessibility, including federal ADA requirements for sidewalks, and b) incorporate sidewalk design elements that construct accessible landing pads for bus ramp deployment including, where appropriate, improvements to curbing and street storm water flow. These improvements increase operational functionality and safety at the stop for both the transit vehicle/driver, the riding public and in particular for people with physical limitations or impairments.	Intercity Transit	No	-	CN	2018	CMAQ	\$63,050	\$9,841	\$72,891
College Street and Yelm Hwy Super "T" Pavement Rehabilitation									
This project will provide a complete pavement rehabilitation on both corridors. The project also includes ADA improvements as required.	Lacey	No	-	PE	2018	NHFP	\$375,000	\$125,000	\$500,000
College Street Corridor - Phase 1									
Per the 2009 College Street Corridor Study, this project will widen the roadway to include a planted center median, auxiliary left turn lanes, sidewalks, with typical urban amenities. This includes traffic control roundabouts at 16th Avenue, 22nd Avenue and 29th Avenue SE. Future phases will be constructed as funding becomes available. The project will involve landscaping, excavation, paving, and drainage improvements. The project will be constructed in multiple phases with the first phase being the construction of the 22nd Avenue SE roundabout.	Lacey	Yes	C42	CN	2018	State/Local	\$0	\$848,458	\$848,458
Old Highway 99 Rural Capacity Project									
Reconstruction added capacity project including the possibility of minor realignment, additional lanes, curbs, gutters, sidewalks, bike lanes, illumination, drainage facilities, intersection improvements, landscaping and other safety features.	Thurston County	Yes	C22	All	2018	State/Local	\$0	\$150,000	\$150,000
Olympic View Elem/Thompson PI Neighborhood SR Enhancement									
The project includes but is not limited to traffic calming (e.g., speed cushions, traffic circle), pavement markings, signs, curbing, school zone flashing beacons, ADA improvements, illumination, and education/outreach.	Thurston County	No	-	PE	2018	SRTS	\$130,000	\$0	\$130,000
Mullen Road Reconstruction									
Reconstruct roadway and widen 2 travel lanes to add bicycle lanes and sidewalks on both sides, additional channelization, landscaping, illumination, drainage improvements and other associated work. The proposed project will have sidewalks, bike lanes and a travel lane in each direction for the entirety of the project limits. Retaining walls will be necessary along portions of the project. A roundabout will be installed at Carpenter Rd to improve safety and operations. All stormwater will meet current standards. Illumination will be installed throughout the project limits.	Thurston County	No	-	CN	2019	STP(US)	\$2,000,000	\$4,400,000	\$6,400,000
