

Surviving Your Winter Commute Tips from Intercity Transit

1. If you don't have to drive...don't!

- Our buses operate in snow and ice. Let Intercity Transit get you there safely.

2. Make your winter commute plan now—before bad weather hits.

- Use our online trip planner to find your route; enter your start and end points and you'll see your options
- Take a test ride

3. Check if your route is likely to be detoured during snow and ice.

- Routes 41, 43, 44, 45, 47, 60 and 64 have standard snow detour routes
- The snowflake icon  on a route map indicates a standard snow detour
- Detour routes are available on our website or starting on page 97 of the Transit Guide

4. We publicize when we routes are on snow detour:

- On our **website**; A Rider Alert will be posted on the homepage.
- On **Facebook** and on **Twitter**
- On **local radio stations** (KGY 96.9 FM, KRXY 94.5 FM and KXXO 96.1 FM)
- **Questions?** Call Customer Service at 360-786-1881

5. When waiting for the bus:

- Wear **warm, bright/reflective** clothing
- Use a **flashlight, reflector, or your cell phone** so our drivers can see you
- Understand that buses will likely be delayed...use **OneBusAway** (on routes that aren't detoured)

6. If you are part of a vanpool:

- Create a plan **in advance**
- **Don't drive** if you don't feel comfortable
- **Don't leave anyone behind.**
- Stuck in the snow? Call 360-786-8703

Stay safe!
